Subj: EDUCATION & TRAINING COMMUNITY OF INTEREST NAME CHANGE

1. Since 2008, the Office of Secretary of Defense has expanded the implicit roles and responsibilities for Functional Community Management (FCM) in support of the Strategic Civilian Human Capital Plan (SCHCP) throughout the Department of Defense (DoD). As the Component Functional Community Manager, I support aligning the operational, business, and strategic levels involved with assessing, monitoring, and reporting functional community management. This enhances the organization goals incorporated in community management across DoD by:

- Promoting effective information sharing
- Creation of meaningful-not multiple-metrics and linked reporting
- Promotes shared understanding of data at all levels

2. Accordingly, request the title of Education & Training Community of Interest be formally changed to the Education Community of Interest.

3. The point of contact is Mr. Jim Hilton, Education Community Manager, (703) 432-0861, james.hilton@usmc.mil.

J. W. BEAROR
